## HOCKEY

### Pupils score fun, food on training trip

A TRIP to Singapore was as much about indulging in the rich culture of the city state as it was about competing in a hockey competition for Mazenod College athletes.

The 16 students, three teachers and two parents explored cheap eateries and markets and also enjoyed excursions to Little India and Universal Studios.

The team played five games and had two training sessions.

There were paired with students from Teck Whye Secondary school for a day, during which they observed two classes and then finished the day with a presentation and a game of floor ball.

**Mazenod College students with their Teck Whye Secondary School counterparts.**

While the Mazenod team only won one game in the competition, the students found the trip valuable and came away knowing to be better prepared for the next tour.
